Together We Can

For All Albertans:

We would re-vitalize government by enacting a tough Code of Ethics and Conduct Act to restrict conflict-of-interest in government. We would end government secrecy with a Freedom of Information Act.

We would end utility profiteering with a fair system of public power.

We would cut property taxes by 30% by covering all but 10% of education costs through provincial funding.

We would abolish Medicare premiums and ban extra billing.

We would introduce a Comprehensive Community Crime Control Program.

We would enact an Environmental Bill of Rights.

We would introduce an Alberta wide free public ambulance service.

We would create jobs through the paving of 4,000 miles of unpaved highway.

We would introduce a fair Rent Control Program.

We would bring the rigs back by instituting programs to stimulate the energy industry, with emphasis on independent Alberta companies.

We would provide direct 10% interest loans to small business, farmers and homeowners through Treasury Branches and Credit Unions.

For the Young and Elderly

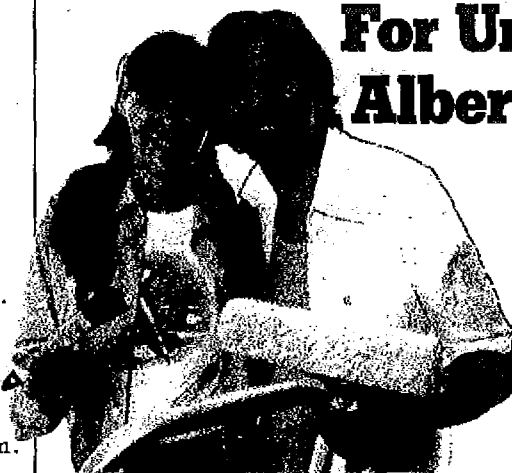

We would establish a comprehensive Denti-care Program for all children from Kindergarten to Grade 12.

We would increase funding for non-profit day-care, nursing homes and home care.

We would guarantee security to pensioners with an indexed Alberta Assured Income Program and fully transferable pension benefits on the death of a spouse.

For Urban Albertans

We would increase local autonomy and lower property taxes through a provincial/municipal resource revenue sharing agreement.

We would undertake a \$700 million LRT Program for Edmonton and Calgary.

Make Alberta Work for You.

Make a Change

For Rural Albertans

We would strengthen the family farm by limiting farm input costs and we would work with farmers to develop a Farm Income Stabilization Plan.

We would establish a provincial tax deduction to take account of the vital contribution of farm wives.

For Northern Albertans

We would complete northern rail links from the Peace block to the West Coast.

We would commence a New Frontier Program to add five million acres of new agricultural land.

We would sign a Special Arda Agreement to bring millions of dollars a year into Northern Alberta's native communities.

We would guarantee resource revenues to all Metis settlements.

We would regulate the price of gasoline, electricity and natural gas to ensure that all Albertans pay the same price.

For Alberta's Workers

We would guarantee women equal pay for work of equal value.

We would bring all working Albertans under a new Labour Act and upgrade and enforce Occupational Health and Safety Legislation.
