WHERE WE STAND

Social Credit is your "common-sense" alternative for:

Dividends

- Return natural resource revenue to Albertans in the form of dividends, as is currently done in the state of Alaska.

Health Care

- Eliminate health care premiums.
- Support for preventative medicine / alternative therapies.
- Return decision-making to the community level, and away from centralized control in Edmonton.

Re-regulation of Utilities

- Affordable prices for heat and electricity.

Education

- Eliminate public school fees.
- Low-interest loans and grants for post-secondary students.
- High school graduates will be provided with a grant for use at any post-secondary institution in the province.

Environment

- Support for alternative sources of energy.

Auto Insurance

- Lower rates - fairness to good drivers.

Agriculture

- Regain control of our industry and farms.

Democratic Reform

- Fixed election dates
- Free votes
- Triple-E Senate
- Citizen-initiative legislation

Alberta Agenda

- Defend Alberta's Constitutional rights.
- Support for an Alberta Pension Plan, police force, and the collection of taxes at home.
- Support for a Triple-E senate.

Seniors

- Restore Seniors' Benefits.

The Alberta Social Credit Party is neither a "right-wing" nor a "left-wing" political party. Social Credit seeks to return government to the people by allowing individuals, not "big business" or "big government," to control decisions which affect them.

We believe in the right of the people to benefit from economic policy and the natural resources of Alberta and that the Government of Alberta should have the courage to boldly accept and represent the "provincial rights" of Alberta.

We advocate better use of the Alberta Treasury Branches and oil & gas revenues to help end "poverty in the midst of plenty".

One of our principles is that **whatever is physically possible and morally right, should be made financially possible.** The Alberta Social Credit Party is the only Alberta party that is willing to honestly discuss this critical issue.
