### ***Vancouver Centre New Democrats***

**E**mery and Mike combine experience and fresh ideas. As Vancouver Centre's MLA for the past 14 years Emery has been a strong voice in Victoria speaking up for his constituents. As Mayor of Vancouver, Mike knows how to create opportunities and get things done.

Mike and Emery are busy meeting old friends and making new ones in Vancouver Centre. They're listening carefully to their constituents. Together they are a dynamic, energetic team — part of the strong, new leadership New Democrats are ready to give BC.

### ***New Beginnings... Jobs***

**V**ancouver Centre New Democrat candidates Mike Harcourt and Emery Barnes know that creating jobs and new opportunities is the real issue in this election.

B.C. with its wealth of natural resources and skilled workforce has unlimited potential. Yet under the Social Credit government half a million people have been forced to depend on unemployment insurance or welfare. Thousands more people are trapped in low-paying jobs with no future.

New Democrats will encourage locally based industry to expand and develop new products and jobs with greater emphasis on manufacturing and resource processing as the prime vehicles for diversifying the BC economy.

Mike Harcourt, Emery Barnes and the New Democrats have a fresh, positive approach to revitalizing our economy. New Democrats will build on our immense natural wealth to expand and diversify the economy and create new jobs.

- Special attention will be given to the forest industry creating 38,000 jobs through reforestation.
- A municipal works program will create 22,500 new jobs, and new housing construction will create another 12,000 new jobs.
- A high priority will be placed on opening new job opportunities for women.
- Our Youth Guarantee Program will give all young people aged 15 to 24 guaranteed access to full-time education, work, training, or a combination of the three.
- Small business development and assistance programs are a key part of the New Democrat's development strategy.

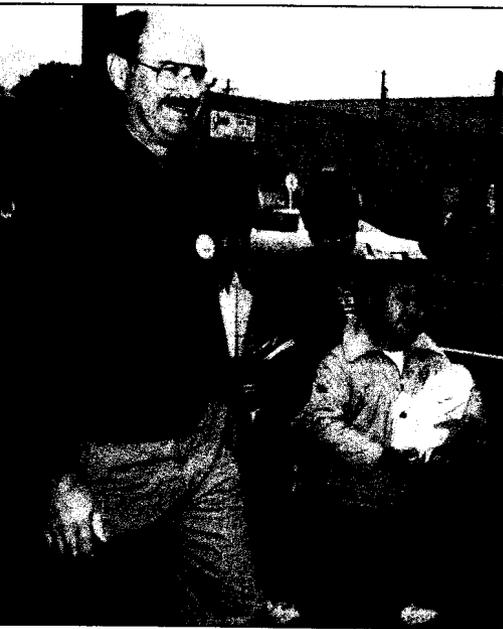

### ***Education Is An Investment In Our Future***

**B**ritish Columbians have a right to a good education. New Democrats believe an investment in the education of people is an investment in our future economic prosperity. Yet B.C. has the lowest per student spending on education in Canada.

New Democrats will restore stability to the education system by ending cutbacks, make all levels of education more accessible to everyone, consult with students, parents and professionals, and create a Commission of Inquiry to examine educational needs for the future.

New Democrats will establish a Youth Guarantee Program to guarantee that all young people aged 15 to 24 have access to full-time education, work, training, or a combination of the three.

### **Good Quality Health Care For All Of Us**

**N**ew Democrats insist that no one be denied access to health care for lack of money. Health care is a vital service that must be available to all of us and our families, regardless of how much money we have in our back pocket.

New Democrats will eliminate hospital user fees, establish community health clinics to provide important preventive programs, ensure that hospital facilities are more fully utilized, restore and expand community support and home nursing services, and restore the denticare program for children and seniors.

### **New Opportunities**

**T**he provincial election gives you an important opportunity to choose a fresh, positive alternative to the failures of the Social Credit government. It is an opportunity for a new beginning for British Columbia with the New Democrats.

New Democrats have worked hard to develop innovative and practical solutions to the serious problems that confront our province after ten years of Social Credit government. But, we believe people must find solutions together. We've consulted with small business people, working people,

senior citizens, teachers, community groups and people from all walks of life around the province in finding solutions.

New Democrats will build on the strength of our immense natural wealth to revitalize our economy and create new jobs. We will also take steps to protect our health and school systems.

We believe very strongly that we have to put teeth back into human rights laws to protect ethnic groups, women and minority groups from discrimination.

New Democrats will make sure that renters have assistance in settling disputes with landlords and we will give the development of affordable rental and housing accommodation a high priority.

Working together we can find solutions and make decisions for a new beginning.

Our commitment is to work in the interest of the people of Vancouver Centre. We ask for your support on election day.
