LABRADOR**

ROBERTS

STRAIT OF BELLE ISLE

A PROMISING FUTURE FOR NORTHERN NEWFOUNDLAND

Join with Ed Roberts in bringing Newfoundland's new-found prosperity to all the people of the Northern Peninsula.

With the expanded 200-mile Canadian fishing limits, the catching and processing operations are setting new records. Fishermen, fish plant workers and their families are earning more from the ocean.

We can be proud of a new paved Highway, almost complete, from Deer Lake to St. Anthony. And of new and expanded fish plant facilities.

With Newfoundland on the threshold of gas and oil discoveries off our coast, we must work to ensure that Newfoundlanders get jobs on the rigs and jobs providing supplies and services to the drill ships.

We want the benefits of offshore gas and oil, Labrador hydro power and the new fishery. But we also want to keep our own Newfoundland way of life.

Support Ed Roberts. Support the quest to bring the new prosperity to Northern Newfoundland. Meet the challenge to retain our Newfoundland traditions.
