

ROBICHAUD FOR ACTION IN NEW BRUNSWICK

LOUIS J. ROBICHAUD

FOR INDUSTRY • JOBS • PROGRESS

FOR PROGRESS and PROSPERITY

VOTE LIBERAL

ON APRIL 22nd

VOTE LIBERAL

KEEP NEW BRUNSWICK
ON THE MOVE !

KEEP NEW BRUNSWICK MOVING

LOUIS ROBICHAUD... A MAN WITH DRIVE AND FORESIGHT

In June 1960, Louis Robichaud led the people of New Brunswick to a decisive victory for strong, aggressive, efficient government.

In less than three years WE NEW BRUNSWICKERS have started the most dynamic expansion program in our long history... a vast mine-mill-smelter-chemicals complex for the base metals of the Bathurst-Newcastle area with more than \$50 millions capital investment... new pulp and paper mills for Miramichi and Saint John areas (\$45 to \$75 millions)... greatly expanded shipbuilding industry (2,200 jobs)... our first electronics industry at Atholville (600 jobs)... new chemicals industry at Dalhousie and distillery at Richibucto... new manufacturing industries *throughout* the Province.

New steel trawlers and other vessels for the fishing industry... 1,500 miles of rural roads already rebuilt... assured New Brunswick coal markets... new farm credit facilities... excellent labour-management relations.

On the human side... increased widows' pensions and Workmen's Compensation benefits... free medical care for cancer patients... rapid expansion in education and trade training opportunities for our youth.

And ALL THIS is ONLY A START!

Louis Robichaud said recently:

"The people of New Brunswick have the finest industrial prospects — thousands of good new jobs — and great opportunities to win prosperity for themselves."

By voting Liberal on April 22, you can guarantee a continuation of vigorous LEADERSHIP, ACTION, and Industrial Progress for New Brunswick.

LIBERALS HAVE THE PROGRAM TO MAKE NEW BRUNSWICK GREAT

The New Brunswick Liberal Party has a program, a plan and a purpose to make the Province strong and prosperous — with good relations — not only in Ottawa, but throughout the World. These are clearly stated objectives for our economic future and for the essential needs of our people. This is the kind of government that makes sure all New Brunswickers share fairly in the benefits of industrial growth.

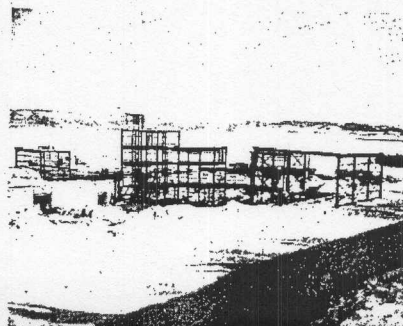

A Liberal Government means full employment, jobs and job security, a higher standard of living, and increased benefits for all our citizens... increased activity in trade and commerce... increasing development of our natural resources through investment of capital, to make them work to meet the urgent needs of our Province and people. (\$200 million capital investment forecast for 1963).

Policies put forward during the first three years of Liberal Government in New Brunswick have been policies of PROGRESS. These policies will ensure that New Brunswick will never again be the forgotten or "have-not" Province of Confederation. The people of New Brunswick deserve only the best... and are assured of it with this LIBERAL Government of ACTION.

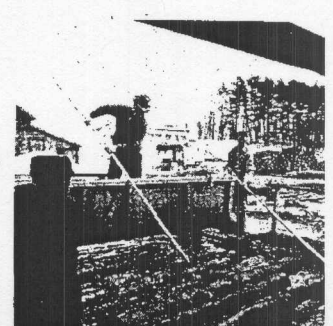

SUPPORT FOR LIBERAL CANDIDATES IS SUPPORT FOR ECONOMIC GROWTH
