

Meet

PHIL WARREN

**Your Liberal Candidate for
MOUNT SCIO**

Phil was born at New Perlican, Trinity Bay in 1933 where he also received his elementary and high school education. Phil then attended Memorial University where he obtained the degrees of B.A.(Ed.) and B.Sc. in 1956 before going to the University of Alberta where he received his M.Ed. (1959) and his Ph.D. (1962).

Immediately following his university training in 1962, Phil became a Professor at Memorial University and served for some of those years (1967-1973) as Head of the Department of Educational Administration. He is presently on leave from Memorial University so that he can devote all of his time to politics.

Phil has always been active in his community. Among other things, he has been school principal, school board member, and member of the Newfoundland Public Libraries Board, the Provincial Health Council, the St. John's Hospital Advisory Board, the St. Luke's Homes Board of Management, and the Canadian Officers Training Corps where he is commissioned as a Second Lieutenant in the Royal Canadian Signal Corps. Phil gained wide prominence as Chairman of the Royal Commission on Education and Youth (1965-68) and subsequently as a member of the General Advisory Committee to the Minister of Education from 1968 to 1974.

Many reports and articles have been written by Phil, including **Community Use of Schools, Quality and Equality in Secondary Education in Newfoundland and Labrador, Financing Education in Newfoundland and Labrador, and Public Attitudes Towards Education in Newfoundland and Labrador**. These articles have led, in part, to Phil's appointment as Chairman of the Liberal Party Policy Committee.

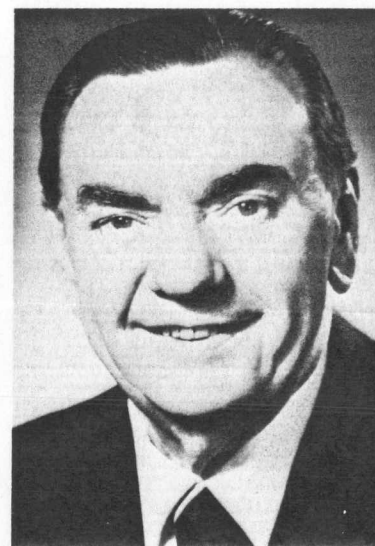

Phil has lived in Mount Scio District for 15 years with his wife Marie (Brown, Tack's Beach) and their three children.

Some of his Objectives

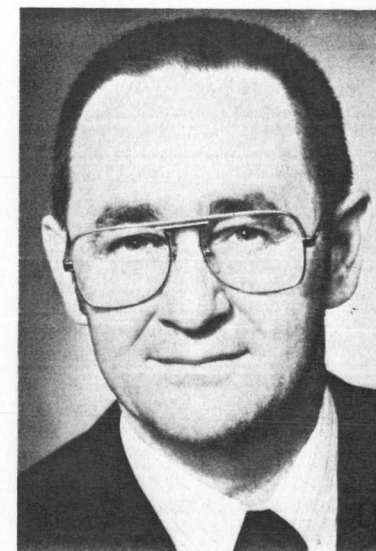

- To ensure that education in this Province is given the priority it deserves.
- To ensure greater equality of opportunity for all groups in Society.
- To deal with the unemployment situation that exists in this Province.
- To build a spirit of local initiative and self-reliance.
- To reform the political process and the way the Government conducts its affairs.
- To consider and deal with such things as the high cost of energy, the concept of Regional Government, housing policy, and so on.
- To work full time for the betterment of Mount Scio and our Province.

Election, Prov'l - June 18, 1979.*

LIBERAL POLICY

A FAIR SHARE FOR ALL IN NEWFOUNDLAND

PRIORITY — JOBS

THROUGH —

- ✓ New Road Construction
- ✓ Upgrading and Paving of Existing Roads
- ✓ Improved Management of the Fisheries
- ✓ A Speeded-Up Campaign to Develop the Province's Hydro Potential
- ✓ Stimulating the Construction Industry
- ✓ Special Government-Created Jobs in Areas of High Unemployment

- * Newfoundland can no longer afford the luxury of unpaved highways. New road systems must be developed and present road systems improved to ensure easy access to the marketplace for our fish and forest products . . . these same new and improved roads will also mean the goods we buy can be moved into and about the province more easily and more cheaply.

NEW ROADS IMPROVED ROADS — CREATING NEW JOBS AND NEW OPPORTUNITY FOR NEWFOUNDLANDERS — THIS IS LIBERAL POLICY.

- * The fisheries already provide many jobs in Newfoundland — **Liberals believe a properly managed fishery can greatly increase** this number in a short time. A Liberal government will make sure a fair share of the benefits from this new era in the fisheries goes to the **primary producers and fish plant workers**. Plants in small communities will be encouraged to install new equipment so that **more processing** can be done when feasible, near where **the fish is caught and brought ashore**. **Liberals** also support the concept of **concentrated facilities** where desirable, including **Harbour Grace**. The forests of our province also have the potential to create **many new jobs quickly** — starting with a large-scale program to salvage the acres and acres of forest which have been infested by the spruce budworm.

A COMPREHENSIVE POLICY TO PROPERLY MANAGE THE FISHERIES, PLUS A PROPERLY MANAGED FORESTRY PROGRAM, BOTH CREATING NEW JOB OPPORTUNITIES FOR NEWFOUNDLANDERS — THIS IS LIBERAL POLICY.

- * Newfoundland has great Hydro development potential both on the Island and in Labrador. A new Liberal government is pledged to **push forward with the development of this great potential** as fast as possible. Aside from all the other benefits of this program — the **most immediate benefit** would be the **creation of thousands of new jobs** for those in Newfoundland and Labrador.

A COMPREHENSIVE POLICY FOR THE DEVELOPMENT OF THE PROVINCE'S HYDRO POTENTIAL, CREATING MANY NEW JOB OPPORTUNITIES — THIS IS LIBERAL POLICY.

- * Newfoundland's construction industry is very much under-utilized — **Liberal** policies, as outlined in this document, as well as many additional initiatives, will greatly help in this direction.

CREATING NEW JOB OPPORTUNITIES BY STIMULATING THE CONSTRUCTION INDUSTRY — THIS IS LIBERAL POLICY.

- * **Liberal Policy** is to take whatever **bold and imaginative** measures are necessary to **create new jobs** for those Newfoundlanders who want to work — areas of particularly **high unemployment** will be **targeted for special attention** and, where necessary, public funds will be used in order to help correct the situation — in all areas programs will be sought out that will eventually provide permanent improvement in the region or community with permanent jobs flowing from them. **HIGH UNEMPLOYMENT IS INTOLERABLE AND UNACCEPTABLE. DOING NOTHING ABOUT IT IS EQUALLY INTOLERABLE AND UNACCEPTABLE — A LIBERAL GOVERNMENT WILL MAKE NEW JOB CREATION A MAJOR PRIORITY.**

PRIORITY — A LOWER COST OF LIVING

THROUGH —

- ✓ A Freeze on Domestic Electricity Rates
- ✓ A Better Food and Commodity Distribution System
- ✓ New Transportation Policies

- * **It is unacceptable to a Liberal government** that in an energy rich province such as Newfoundland, people should have to pay among the **highest prices in Canada** for their electrical needs. A Liberal government is pledged to **reverse** this situation — as a first step in lowering the cost of living, a Liberal government would impose an **immediate freeze on domestic electricity rates** throughout the province. This means, as well, that the **fuel adjustment charge** for household electricity rates will be **eliminated**. Initially this freeze will be for a period of three years.

A THREE YEAR FREEZE ON DOMESTIC ELECTRICITY RATES — TO HELP LOWER THE COST OF LIVING — THIS IS LIBERAL POLICY.

- * One of the single most important causes of the high cost of living throughout the province is our **outmoded system of food and commodity distribution** — a Liberal government would introduce policies designed to eliminate the many unnecessary expenses that presently add so much to the cost of living — Newfoundland needs **new and modern distribution centres** in such places as Port-aux-Basques, the South coast, the Northeast coast, Labrador and in a number of other areas, where supplies in large quantities could be kept closer to retailers and delivered over upgraded roads, thus **reducing transportation and handling costs, resulting in considerable savings** for the consumer.

AN IMPROVED DISTRIBUTION SYSTEM FOR FOOD AND OTHER COMMODITIES THROUGHOUT THE PROVINCE, THUS LOWERING THE COST OF LIVING — THIS IS LIBERAL POLICY.

- * A new Liberal government would move immediately to negotiate with the Federal government to designate the **Trans Canada Highway** as a **federal highway in Newfoundland**, as part of a new, comprehensive transport agreement and policy. The means that the Federal government would **take over the total responsibility** for the **up-grading and maintenance** of this vital transportation link in the province.

- * The upgrading of other road systems throughout Newfoundland and Labrador will also have a **very desirable effect on job creation** and on **lowering the cost of living**. With the railway issue resolved, the remaining really worthwhile information and recommendations to improve transportation in Newfoundland and Labrador contained in the **Sullivan Report** will be given immediate attention. A new Liberal government will launch a complete review of that report involving public transportation, and will, as quickly as possible, implement many of its recommendations within provincial jurisdiction.

A FREEZE ON DOMESTIC ELECTRICITY RATES, A BETTER FOOD AND COMMODITY DISTRIBUTION SYSTEM — AN IMPROVED TRANSPORTATION SYSTEM — ALL LEADING TO MORE JOBS AND A LOWER COST OF LIVING FOR NEWFOUNDLANDERS — THIS IS LIBERAL POLICY.

PRIORITY — A POLICY FOR SOCIAL JUSTICE

THROUGH —

- ✓ A Pharmacare Program
- ✓ New Approaches to the Collection of School Taxes
- ✓ Greater Equality of Educational Opportunities

- * Consistent with the Liberal commitment to equality and fair shares — a new Liberal government will have, as one of its priorities, the introduction of a **pharmacare program** — this program will be designed to **ease the great burden** that falls upon those who have a **chronic illness** in the family, whether it **relates to the elderly, to children or those in special circumstances** — this new pharmacare program will be brought in as fast as possible.

A PHARMACARE PROGRAM TO HELP THOSE WHO CANNOT HELP THEMSELVES — THIS IS LIBERAL POLICY.

- * There are a number of obvious inequities in the present method of **collecting school taxes throughout the province** — people who are **marginal in terms of income**, nonetheless have to pay virtually the same amount of school tax as those who have a much higher income — a new Liberal government is committed to **eliminating** these serious inequities, and to finding a new approach to the method of collection.

SCHOOL TAXES APPLIED WITH EQUITY, PLUS AN IMPROVED COLLECTION METHOD — THIS IS LIBERAL POLICY.

THE LIBERAL PARTY IS COMMITTED TO THE PROVISION OF GREATER EQUALITY OF EDUCATIONAL OPPORTUNITY FOR ALL NEWFOUNDLANDERS — THIS IS LIBERAL POLICY.
