From the verge of bankruptcy to her present enviable position... Alberta's record of progress under the SOCIAL CREDIT Government stands unequalled in Canada....

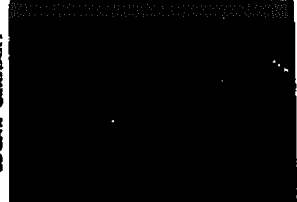

Here Are The Highlights of what Your Social Credit Government HAS Done, IS Doing and WILL Do in the Interests of Alberta and Her People!

ERNEST C. MANNING
Premier of Alberta

EDGAR GERHART

C. G. HAYWARD

MRS. C. M. HATTERSLEY

WILLIAM HENNING

Your Social Credit Government was the first in Canada to share 50% of gasoline tax revenues with municipalities. Your Social Credit Government will continue to expand its program of Municipal Assistance under which all municipalities and school districts are guaranteed a generous measure of provincial aid in meeting both operating and capital expenditures.

A comprehensive program of practical co-operation and assistance with those engaged in agriculture -- Alberta's Most Important Industry -- with particular attention to the needs and problems of farm people.

Your Social Credit Government will continue to assist in providing electric power by bringing rural electrification within the financial reach of Alberta farmers.

The continued ardent development of Alberta's vast natural resources through individual and competitive enterprises, with all citizens being guaranteed a share of the benefits.

Continue to use the revenue from oil development for the welfare of the people. This money is being used to:

- Provide revolving funds for municipalities, schools and rural electrification.
- Provide better educational facilities.
- Build better highways and market roads.
- Erect public buildings, such as hospitals and schools.
- Retire the debt incurred by former governments.
- Create a reserve for future emergencies.

Continue to lead in providing good roads and highways. Your Social Credit Government has completed highway construction and maintenance to the value of \$275,000,000 WITHOUT ANY BORROWING. This year municipalities will receive \$10,500,000 in grants for market and local roads, bridges, etc.

Sympathetic government attention to the problems of both management and labour with due regard at all times for the rights and interests of the public as a whole.

A comprehensive program of practical measures designed to assist and encourage industrial, economic and cultural development on a province-wide scale.

A constant and uncompromising stand for a free democratic way of life in which the rights and responsibilities of each individual citizen are recognized and respected.

Alberta provides more and greater opportunities for better education, at lower cost to local school divisions and taxpayers. Alberta is the only province to make education tax reduction grants, this year amounting to over \$6,500,000 in actually lower school taxes. Alberta now pays up to 50% of the total operating costs of schools, as well as providing all funds for capital construction through generous grants and low interest rate loans.

The progressive expansion and improvement of Alberta's comprehensive public health and welfare program. Your Social Credit Government was the first in Canada to provide FREE care and treatment for tuberculosis, cancer, pain and maternity patients. Hospitalization and medical and dental services also are provided free in old age and blind pensions and recipients of mothers' allowances.
